D BLENDS

INCLUDING COMPOUND D, HIGH ANALYSIS D, AND DOUBLE D, ARE SCIENTIFICALLY FORMULATED WITH ESSENTIAL NUTRIENTS AND SULFUR. THESE BLENDS ENHANCE SOIL FERTILITY, PROMOTE ROBUST GROWTH, AND OPTIMISE YIELDS OF MAIZE, WHEAT (CEREALS) AND OTHER PULSES, ENSURING SUPERIOR CROP PERFORMANCE IN ZIMBABWEAN AGRICULTURE.

B & C BLENDS

RICH IN HIGH PHOSPHATE AND POTASH, THESE BLENDS ARE IDEAL FOR TOBACCO AND HORTICULTURE. ENHANCED WITH MICRONUTRIENTS LIKE BORON AND SULPHUR, THEY PROMOTE VIGOROUS PLANT GROWTH AND SUPERIOR YIELDS, ENSURING OPTIMAL PERFORMANCE FOR FARMERS.

NITROGEN STRAIGHTS

OUR NITROGEN TOP DRESSINGS, INCLUDING AN, UREA, AND AMMONIUM SULPHATE, PROVIDE ESSENTIAL NITROGEN TO SUPPORT VITAL PLANT PROCESSES. THESE FORMULATIONS ENHANCE CHLOROPHYLL PRODUCTION, BOOST PHOTOSYNTHESIS AND IMPROVE PROTEIN SYNTHESIS, LEADING TO STRONGER, HEALTHIER CROPS AND SIGNIFICANTLY INCREASED YIELDS.

SPECIAL STRAIGHTS

WE PROVIDE SPECIALISED TOP DRESSINGS WITH POTASH AND PHOSPHATE WHICH ENHANCE ROOT DEVELOPMENT, IMPROVE NUTRIENT UPTAKE AND SUPPORT OVERALL PLANT HEALTH. THESE NUTRIENTS ARE CRUCIAL FOR ROBUST GROWTH, INCREASED DROUGHT RESISTANCE AND HIGHER CROP YIELDS.
