Experience

UI/UX Designer — Steward Bank, Zimbabwe

Full Time — March 01 - 2019 — Present — Harare, Zimbabwe

Responsible for collecting, researching, investigating and evaluating user requirements. Delivering an outstanding user experience providing an exceptional and intuitive application design.

- Creating visual design prototypes, designing icons, and developing solutions for a new navigation system, resulting in increase in user satisfaction.
- Translating concepts and business requirements in user flows, wireframes, mockups and prototypes that resulted in an intuitive user experience.
- Focusing on predicting what users may need to accomplish and making sure that the interface provides elements that are simple to access, understand, and use to facilitate those tasks.

Strategic Brand Designer — Freelance

Harare, Zimbabwe

The heart of design lies in great ideas, which are produced with an obsessional devotion to detail. The clearest example of this is my design movement because I give enough attention to each and every component of a product to create an experience that feels like there's no other way it can be.

3D Designer — Pinkler Media Zimbabwe

Full Time — June 2018 — Set 2018 — Harare, Zimbabwe

Designing, creating, and providing aesthetic advice for presentations. Providing compelling, photo-realistic 3D renderings.

- Creating and refining 3D models for new product categories.
- Examining and enhancing current 3D products and ideas.
- Drafting documentation for freshly developed and updated 3D ideas.
- Interacting with clients to produce precise drawings and comprehend project objectives.

Graphic Designer — National Gallery of Zimbabwe

Full Time — Nov 2014 — June 2017 — Harare, Zimbabwe

Creating visual concepts for communication inspires, informs, and captivates consumers. Developing layouts and production design for advertisements, brochures, magazines, and exhibition branding.

- Managing and collaborating on the ideas of clients.
- Creating ideas, layouts, and graphics, as well as selecting fonts, photos, readability, and reader requirements.
- Choosing the font's size and style, as well as the placement and size of the prose and illustrative materials.
- Updating clients, hearing their opinions, acting upon them, and providing an explanation for graphic design choices.
- Examining completed designs and making any necessary corrections.

Projects

UI/UX Designer — NMB Bank Zimbabwe

Freelance — 2020 — Harare, Zimbabwe

NMBConnect Mobile App — Mobile Application Design

My work on this project As a user interface designer, I developed the design system and visual design interface for each screen.

NMB Bank Website — Website Design

My work on this project As a user interface designer, I developed the design system and visual design interface for each screen.

- Increasing user pleasure through the development of visual design prototypes, icon designs, and innovative navigation system solutions.
- Creating user flows, wireframes, mockups, and prototypes based on concepts and business needs in order to produce an intuitive user experience.
- Concentrating on anticipating the tasks that users would have to complete and ensuring that the UI offers components that are easy to use, access, and comprehend to make those jobs easier.

UI/UX Designer — Nyaradzo Group Zimbabwe

Freelance — 2020 — Harare, Zimbabwe

Sahwira Mobile App — Mobile Application Design

Creating Visual designs and design system for the App

- creating digital layouts that are easy to utilize for the new mobile application
