# Swimming

Let the children glide across the water surface

By Nina Masokovere | Grade 6: Hearts Christian College

Today we are going to talk about swimming. Swimming is when you glide on the surface of water doing arm and leg action. Swimming is important because it can help you when you are stranded in the middle of an ocean or sea.

Swimming teaches you survival skills. The swimming attire for girls is a swimming costume and a drying towel. The swimming attire for boys is a swimming trunk and a drying towel. Other items needed in swimming are goggles, swimming cap and slops or slippers. Safety equipment include floating boards, noodles, ropes and the CPR equipment.

The safety rules when you are around the pool are: don't run near the pool, don't eat near or in the pool and don't bring animals. The safety rules when you are in the pool are: don't run in the pool and don't hold or pull a person who is swimming. It may lead to drowning. A safe way to enter the pool is to do the sitting dive, crouch dive or standing dive.

The basic swimming skills you should know are gliding, kicking as well as arm and leg action. If you know these, swimming will be easy, full of fun and enjoyable for you.
